The children of Goolma public have had a very busy term with a range of performances being enjoyed. Circus Oz and Revolting Rhymes. Luckily we were part of Dubbo’s Sustainability Day where we explored a range of sciences including physics then we saw the very same thing being used at Circus Oz! They used physics at the circus. Stunning!

We have had the very efficient Ros Williams ensure we are Workplace health and safety compliant. Big tick of approval. The energetic Nikki Mayal has worked with us ensuring we are using the Early Action for Success program to the best benefit of our students. We love her visits. The program will continue next year with funding for staffing, resources and training. It is really making a difference.

**I GIVE A GONSKI**

Anyone interested in maintaining and improving the learning outcomes for our rural students is invited to let the politicians know that Gonski funding is making a real difference to how we can help the children of Goolma Public be more efficient learners and so achieve more. Please support this funding stream.

**STATE PRIMARY PRINCIPALS CONFERENCE**

This wonderful opportunity was held in Sydney last week with some outstanding speaking illuminating a way we can lead our students to greater heights, people who have made greater heights, including Mel Eustace, who swim in the Special Olympics and worked for 5 years to get her ocean swim time under and hour! Anyone in the 90% of people not sleeping well for 7-9 hours for adults, 8-10 for high school students and 9-11 for primary students needs to seriously know the significant impact this is having on a wide range of areas on them. Quotes from our final speaker: Be who you are not who you seem and from a cricketer If you bat at the top of the order you are going to face fast bowlers. You will get hit and it will hurt. It’s how you play on that counts. Final speaker was Lieutenant Colonel Cate McGregor who also write a cricket column for the Financial Review and commentates on ABC Radio.
